World Symposium on Choral Music, 23-28 August 2026, Macau, China, *Reimagining the Future*

For six days in August 2026, Macau will be host to one of the biggest events of the International Federation for Choral Music, held with the support of the Macau Choral Arts Association. The theme for the 2026 triennial gathering of the international choral community is *Reimagining the Future* and aims to attract representation from all regions in the world. WSCM 2026 will invite us to reflect on the present, considering what has changed or is in the process of changing, while also looking forward with imagination and curiosity to what the future could hold.

Macau is a vibrant destination that blends Portuguese and Chinese cultures, famous for its dazzling casinos, luxurious resorts, and unique Macanese cuisine. An autonomous region on the south coast of China, across the Pearl River Delta from Hong Kong, Macau was a Portuguese territory until 1999. The region offers a captivating mix of old and new. As such, it is an ideal location in which to 'reimagine the future'!

To help us fulfil this challenge of *Reimagining the Future*, **let's meet the selected choirs:**

[Hamilton Children's Choir](#) (Canada), the [Philippine Madrigal Singers](#) (Philippines), the [National Taiwan Hakka Children's Choir](#) (Taiwan), [Vox Clamantis](#) (Estonia), the [Norwegian Male Choir](#) (Norway), [Postyr](#) (Denmark), the [Adelaide Chamber Singers](#) (Australia), the [Mad Singers Youth Choir](#) (Hong Kong China), The [Singapore Choral Artists](#) (Singapore), the [Ansan City Choir](#) (South Korea), the Shanghai Youth Choir (China), the [University of Johannesburg Choir](#) (South Africa) and the [World Youth Choir](#).

Stay tuned for details on the selected choirs and to meet the inspiring presenters, workshop and conducting masterclass leaders behind this WSCM 2026.

Thank you to all the choirs and presenters who have participated in the calls!

Celebrate the World Choral Day (14 December) and Send Your Video to IFCM

Send your poster to announce your WCD concert to office@ifcm.net

[Download](#) the World Choral Day Proclamation. Recite it before, during or after your concert.

After the concert, send your video to office@ifcm.net. We will publish it on the [World Choral Day Facebook page](#).

On World Choral Day, voices from every corner of the globe will join together with a powerful message: **peace is possible, and it begins with us**. In a world too often divided by conflict, fear, and isolation, singing together is a radical act. It builds trust, opens hearts, and connects strangers.

When two people sing together, they are **not in conflict**—they are **listening, responding, and creating harmony**.

World Choral Day celebrates the power of music to unite us. It's not just about performance - it's about presence. It's about choosing **conversation over conflict, connection over silence**. This year, we are called to reject the walls that separate us - between nations, cultures, communities, even neighbors. **If we sing together, we choose not to fight. We choose to create peace.**

In a time of global uncertainty, our voices must also rise to **protect our shared home**. Climate change reminds us that we are all in this together. Just as a choir depends on every voice to create harmony, a livable planet depends on each of us to protect and care for it. **Peace and a healthy planet are built on strong human relationships.**

Every choir that gathers across cultural, political, or linguistic divides is practicing what it means to be a global family. Just as every singer plays a part in the music, each of us has a role in shaping a more peaceful, connected, and sustainable world.

On World Choral Day, let us **raise our voices—in song, in solidarity, and in hope.**

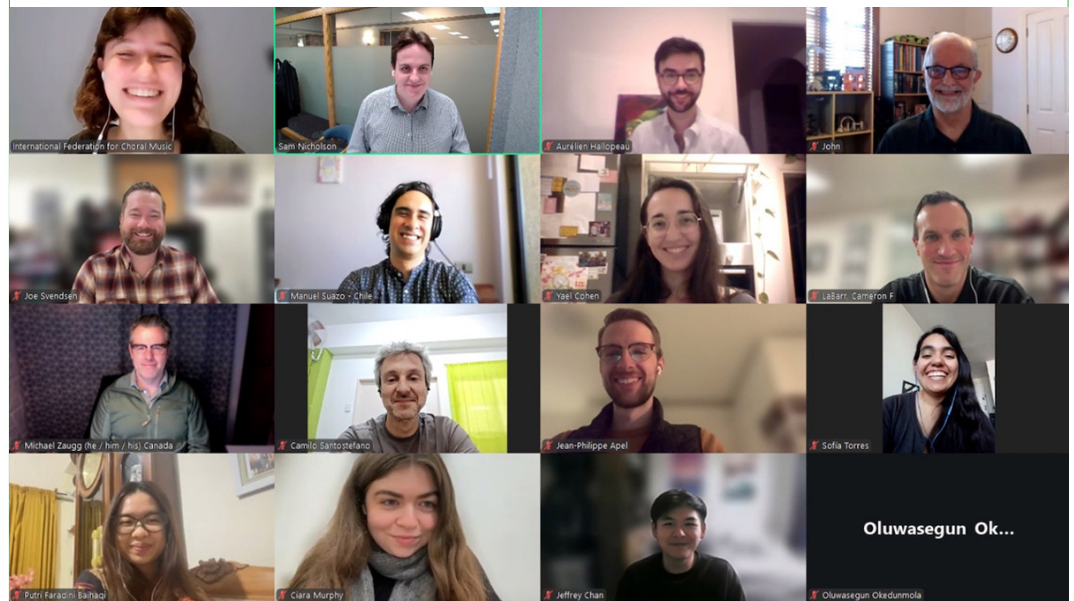

Sing for peace. Sing for our planet. Sing for our future.

Peer-to-Peer Conductors Beyond Borders Exchange Programme

The Peer-to-Peer Conductors Beyond Borders (CBB) Exchange Programme is part of the [Choral TIES project](#) coordinated by the [European Choral Association](#), co-funded by the [European Union Creative Europe programme](#), and organised in cooperation with IFCM.

Thank you to all the participating partners! Here's a peek into some of the November exchanges made possible through the Peer-to-Peer CBB Exchange Programme.

7-10 November: A European conductor from outside the EU (Kerry Boyle, UK) hosted by several choirs in the region of Reims, France

The villages in and around Reims have struggled to recover since the pandemic. Like many places post-Covid, choir numbers remain very low and choirs are looking for new members. To

help revitalise local participation, the villagers invited neighbouring choirs to join and perform at a social event. The choirs were led by Kerry Boyle, who also provided a preparatory workshop for the choirs.

13-16 November: A European conductor (Rudolf de Beer, Norway) hosted by a Department of Education Institution in South Africa (North West Musikon)

During this CBB Peer-to-Peer Exchange Program session, Rudolf de Beer undertook several professional engagements that contributed meaningfully to his artistic development. He led a workshop with Viva Cantare Choir, a choir from Stellenbosch, providing technical and musical guidance to support the ensemble's ongoing growth. Rudolf also served as guest conductor for a new choral-orchestral project with Musikon in Klerksdorp, collaborating closely with local musicians on the preparation and interpretation of the repertoire.

13-17 November: A conductor from outside Europe (Maria Guinand, Venezuela) hosted by choral conductors in Finland (Global Music Department at Uniarts Helsinki)

This CBB Peer-to-Peer Exchange Program session aimed to strengthen global choral leadership by exploring vocal work within an intercultural rhythmic choir. It covered rhythmic conducting techniques across diverse musical cultures, vocal groove, group voice teaching, workshop and rehearsal methods, planning, body–rhythm integration, choral improvisation, and creative approaches to choir direction.

IFCM recommends: Connect & Create - Strengthening Cultural Ties Between Africa and Europe

Connect & Create is the Sub-Saharan Africa branch of the EU-funded Africa-Europe Partnerships for Culture programme. Led by the Goethe-Institut and Expertise France, in partnership with the Institut français, it seeks to renew and strengthen cultural ties between Sub-Saharan Africa

and the European Union through equity, inclusion, and sustainability.

Launched in 2025 in Addis Ababa and Zanzibar, the initiative embodies the Team Europe spirit, combining the expertise of the three partner institutions. It promotes a collaborative, artist-centered approach, positioning culture not only as a means of outreach but also as a transformative force for genuine cooperation, creativity, and mutual respect.
