#### Educational choral music programme for young musicians of Japan

The heart of the Japan Choral Association Youth Choir (JCAYC) is a 4-day music camp, an educational programme featuring top choral musicians of the world (singers, directors, composers, and educators) as faculty and fostering the development of young singers chosen through auditions from all parts of Japan. For four days each March, these richly-talented music camp participants receive instruction on high-level craft from the faculty as well benefit from a wealth of choral experiences. These young singers experience an international exchange through music, thereby deepening international mutual understandings. The outcomes of this learning experience are presented in a concert after the music camp. As the JCAYC is the premier youth choir in Japan, the concert attracts large audiences every year.
